PROFESSIONAL EXPERIENCE

Vallabhi IT services LLP

Full Stack Developer
06/2024 – present | Lucknow, India
As a Full Stack Developer at Vallabhi IT Services LLP, specializing in mobile application development, I collaborate closely with cross-functional teams to design, develop, and deploy scalable solutions using cutting-edge technologies such as React Native. I contribute to architectural decisions, ensure seamless integration of front-end and back-end components, and troubleshoot technical issues to deliver high-quality applications within project timelines. Continuously staying updated with industry trends and technologies, I am committed to optimizing performance and enhancing user experience through innovative solutions.

Internshala

Full Stack Web Development Training
Successfully Completed full stack web development training from Internshala with project. Also got batch of top performer of the training.
scored:95%

PROJECTS

DeepNeumo

AI and Deep Learning Project
Developed "DeepNeumo," an AI-powered system for pneumonia detection using X-ray datasets. Implemented deep learning techniques to analyze medical images, achieving accurate and efficient diagnosis. Applied skills in AI and deep learning to contribute to healthcare innovation and improve diagnostic capabilities.

E-commerce App UI

React Native Project
I've designed a sleek and intuitive user interface for a shopping app, focusing on providing a seamless shopping experience. From browsing products to the checkout process, this UI is aimed at making online shopping not just efficient but enjoyable! Skills Used: React Native, Android Studio, CSS.

E-crime Website

Web Development Project
Designed and developed website for reporting crime online, this website was designed to do online FIR irrespective of time and place.
Skills used: HTML, CSS, JS, DBMS, PHP, SQL
